

Specialized ADR

*The "Go-To" Firm For
Alternative Dispute Resolution*

David Carroll

Mediation and Arbitration – Florida Supreme Court Certified County Mediator. # 28358 C

David has over 30 years of working in areas of executive, technical, educational and business, experiences. This gives him a great advantage over other mediators and arbitrators. He understands your issues and is able to help you find the resolution you are looking for. It is hard to find someone with this specialized knowledge in so many areas and who is able to work with people

in such a productive way.

He has been called "a natural mediator". Alternative Dispute Resolution is the perfect fit for David's personality and beliefs. A mediator must be able to listen and understand and use insight and combine that with experience, and passion to conclude a dispute in the best possible way. Due to his vast personal knowledge of engineering, electronics, information systems, Intellectual property, business and family issues, he will have a true understanding of the subject of your dispute so he can assist you in finding the best solution.

David realized that all of his experiences had led him to know about the laws that played a hand in the industries he has been involved in. He decided to return to school to become an attorney. While attending law school at Nova Southeastern University, David had found a great passion for Alternative dispute resolutions. He became very involved in the mediation clinic at Nova Southeastern and mediated many cases. He became a Florida Supreme Court Certified County Court Mediator, and a Florida Supreme Court Qualified Arbitrator.

He was the only student in a mediation workshop and a small number of students in the ADR clinic that was hand selected by the head professor to participate in the Nova Southeastern University Juvenile Mediation Diversionary Program. He used his experience and abilities as an effective mediator to divert arrested juveniles from the juvenile justice system and on to a new and better path. The program that David participated in provided mediation services for juveniles, their families, and victims, which allowed families to identify and address the issues which led to the child's arrest.

Also while attending law school, David interned at the Broward County Courthouse in the Mediation/Arbitration Department. His responsibilities included performing many mediations and reviewing and revising procedures for attorneys during court-appointed mediation. These mediations ranged from client\tenant disputes, HOA\CA issues, Foreclosures, debt disputes and negligence disputes. (ETC...).
